

Hari Ohm!

With the blessings of Lord SatyaNarayana, our efforts are looking positive and bright today. With the type of support and enthusiasm from our sisters and brothers, I am confident that the dream Mandir could come up as fast as 12 months!

Pandit Jawaharlal Nehru told us '*aim at the moon*'; you may reach somewhere below, but that's fine as far as you have a definite goal and systematic effort to achieve that goal.

Bhagavan Krishna told us to *Work* without concentrating on the *results*; Fruits of *Karma* is not in our hand, then why do you worry? *Result* will follow, based on how you performed the *Karma*.

These exhortations give us strength; But we need your support - each and every McMurray Hindus to tighten their belt and contribute to this great cause. *An ocean is formed by drops of water through the rain!* Please remember, we are aiming at a Million dollar budge....

We are fortunate to receive pledges totalling \$52,000.00 in three weeks! Thanks to all of you, who responded quickly - This is the way you show solidarity with the working group. Please review the attached list and let us know any mistakes. You are always welcome to revise your pledge upwards at any time.

We believe in transparency. Please find attached, synopsis of the NPM progress review meeting held on 29th Nov09.

Now, as a well wisher of mandir, you have a few action items;

1. Talk to your friends and families in other cities- about our initiative and let us know whether they would like to be a part of this *infancy struggle* of the Mandir?
2. Please subscribe to FMmandir-subscribe@yahoogroups.ca
3. Please attend 'NPM Project' progress review meetings every alternate Sunday.

We are looking forward to your presence in our **next meeting at 11am on December 13th** at Father Mercreddi School, Thickwood.

With love,

On behalf of the NPM project,

Vish Warriar
